Re: USG Acoustical Products Co.
Corsicana, Texas

US GYPSUM CO.

TRD 007384392

Dear Ms. McKee,

As you suggested in our meeting of August 29, 1985, the subject investigation has been referred to the Texas Water Commission for further handling. Mr. Clifford Hall, P.E., telephone 512-463-8425 is representing the state in this matter.

As you can see from the attached documents, an orderly and extensive plan for soil testing has been proposed, and accepted by the state. It is the intent of the USG Acoustical Products Company to determine the degree of hazard, if any, connected with the site through the test program. Remedial measures, if required, will be developed and proposed after the test results are obtained.

Mr. Hall has suggested that you call him if you have any questions on this approach.

Sincerely,

Frank P. May
Manager
Corporate Environ. Svcs.
Corp. Technical Services
